

CHURCHILL J

Address: 8/31, Kalungadi, Soorankudi, Nanguneri (POST),
Tirunelveli-Dist. 627108

Professional Snapshot:

- An Extensive experience with versatile domains like **Networking, Broadcasting, Administration.**
- Installation and configuration of L2/L3 network devices.
- An extensive experience in **VLAN, STP Protocols, Ether-Channel, Mac-addressing, IP Addressing, SNMP, VTY Protocols** and **Switching** Technologies.
- In Depth Experience in monitoring Tools like Zabbix, WhatsApp Gold.
- Hands on experience **Cisco Products.**
- Experience in Data Centre Design and Maintenance.
- Hands on experience in implementing **Servers, Routers, Gateways, ISG** and **Switches** at Data centers and POP locations.
- Experience in TAC Follow-ups, Vendor Escalation, Servers Maintenance, Customer Escalation, Data and Asset Maintenance.
- Experience in recruitment and documentation process.
- Good Communication and interpersonal skills.

Academic Qualification

- Bachelor of Engineering in Electrical and Electronics Engineering from Sun college of engineering and technology - 6.25 CGPA / 2017.
- Diploma in Electrical and Electronics from Sun polytechnic college - 8.95 CGPA /2013.

Work Experience:

TTE Electronics INDIA PVT LTD (TCL COMPANY)

MAY 2024- Current

Network Administrator

Roles and Responsibilities:

- FortiGate Firewall Configuration.
- IPV4 Policy Configuration.
- Interface Configuration.
- SD-WAN implementation.
- Web Filter, DNS Filter, Application Filter.
- Security: Access list, Switch port access list and working with NAT for FortiGate Firewall.
- H3C Switch Configuration and troubleshooting the Layer2, Layer3.
- Configuring IP for LAN and WAN Interfaces in H3C Switch.
- Configure and troubleshooting for several types of Aruba wireless devices.
- Configuring Switch Trucking and Link Aggregation.

- Spanning-tree protocols and types.
- Monitoring network using WhatsApp Gold.
- Involved in various activities in the LAN, WAN, Setting Configuring modems and routers, Switches and set up them in a network.
- Document handling and Stock inventory management.
- Backing up for all network device configuration & IOS over TFTP Server.
